On this inspection found that they have tried to move the concrete piers from the bridge but they are too heavy they may have to cut in half to move. No other work has been done to remove the steep part of the walkway.

Two white tanks are still not in use.

The Koe pond is still ~~working~~ not working yet. They are still working on the walkway from Temple to lake.

They are also working on the entrance from Galley Hill cutting the concrete back.

NOTES

On this inspection all of the raised walkway columns are gone. What little is still sticking up will be covered with dirt. The step part still remain and I was told by Jonathan that could stay. The white trucks are still not in use.

The Kae pond has water & fish in it and appears to be completed. The one still working on the walkway down to the lake.

The one installing forms on the wall so as to pour concrete soon.

Al Bodd

Refers to illegal cover walkway demolished except for what is discussed here.

NOTES

11-8-19

On this inspection nothing has changed as far as the walkway. The two white tanks are still not in use. By the Koe pond they are removing some side walks and building a wall for a statue. Nothing structure. The work on the walkway from Koe pond to lake is almost done. The Koe pond is having a temporary canvas cover ~~of~~ over it to avoid freezing to protect the fish.

NOTES

12-16-19

On this inspection found that nothing has change as far as the walkway the part that is on ground remain the raised part is gone.

They are doing ~~add~~ a lot of work on a sidewalk by the Koe pond. They have dug some of the existing concrete up and are in the process of lowering the sidewalk lower & pouring concrete.

The only other work found is on the Guywood Turnpike entrance were they are clearing for another entrance to the facility.

On this site visit the two white tanks are still not in use. Work on the ~~to~~ retaining wall has stopped for now. They started adding forms to the walls by the Roe pond and were informed that they would need a permit and plan before proceeding any further. They said they would do what was necessary. The driveway concrete is all done into the facility. Found no other work being done at this time.

WORK WITHOUT a Permit.

Does not mention if a SWO was written up.

Went up with Alfred Fusco III to check on the walkway by the Koe pond. The walls are going up higher than 4'. They have been told to stop work on project until town is informed of exactly what they plan on doing with the area. We went to sewer plant and found white tank still not in use. Found they are almost done with the new driveway onto Queymond Turnpike. No other work was found during this inspection.

Another STOP WORK.
